SUMMARY

I am a dedicated frontend developer in Estonia, I thrive on tackling challenges with creativity and I'm driven by a passion for crafting elegant solutions. My focus is on delivering code that not only solves immediate problems but also maintains high standards of maintainability and performance ;)

EXPERIENCE

Frontend Developer

Doyenify

06/2023 - 01/2024 null

Specializes in IT solutions, outsourcing, and coding bootcamp. The services drive efficiency and innovation for your business.

My roles were to:

- Update on progress or difficulty from previous day and how they were solved
- Make responsive website from approved Figma design
- Make the code clean, maintainable and readable for other developers, who were working on different parts of the project.
